

## **BACKGROUND**

The Spokane Regional Transportation Council (SRTC) is a Metropolitan Planning Organization (MPO) and the state designated Regional Transportation Planning Organization (RTPO) for Spokane County. SRTC is responsible for conducting the federally designated metropolitan transportation planning process.

The planning process is required to be collaborative, continual and comprehensive while bringing together a forum of transportation agencies/organizations, elected officials, transportation advocates/experts and the general public. The process and forum address the region's short and long term transportation vision and needs, then identifies how to implement the Spokane region's priorities by allocating federal, and in some cases, state, transportation funds to projects.

Three required documents are produced by SRTC at regular intervals: the Metropolitan Transportation Plan (MTP), the Transportation Improvement Program (TIP), and the Unified Planning Work Program (UPWP). In addition to producing the three aforementioned documents, SRTC also certifies concurrence with the Growth Management Act (GMA), develops a Congestion Management Process, conducts regional travel demand and air quality conformity modeling, and various sub-area studies and modal plans as needed.

SRTC's Board is the policy decision-making body for the purpose of carrying out the transportation planning and programming processes in the Spokane Region. The membership structure of the SRTC Board is developed through interlocal agreement of local governments and other interested parties established to perform the functions of a MPO and RTPO. The Board consists of elected officials, agency representatives and citizens.

Per the 2010 SRTC interlocal agreement: "The SRTC has the power to create committees as necessary, to advise the Board on regional transportation related matters. At a minimum this shall include:

- a.) The Transportation Advisory Committee (TAC) whose composition and responsibilities shall be defined by the Board.
- b.) The Transportation Technical Committee (TTC) whose composition and responsibilities shall be defined by the Board."

Both the TTC and the TAC respond to requests and direction from the Board in collaboration with staff to advise the Board on Regional transportation related matters. The Committees provide input and recommendations on development of SRTC's plans, programs and projects.

## MEMORANDUM

DATE: January 16, 2018

TO: Members of the Transportation Advisory Committee

FROM: Anna Ragaza-Bourassa, Senior Transportation Planner

SUBJECT: Upcoming Call for Projects Overview

### **Summary**

SRTC staff will release a call for projects for the Surface Transportation Block Grant (STBG) program, Congestion Mitigation & Air Quality (CMAQ) program and STBG Set-Aside funds in March 2018. The upcoming call will select projects for SRTC's allocations of the aforementioned funds.

STBG is the most flexible of all FHWA funding programs. Eligible STBG projects types include: roadway and bridge construction and repair, pedestrian and bicycle projects, and transit capital projects.

The purpose of the CMAQ program is to fund transportation projects that improve air quality in the Spokane region. CMAQ funding can be expended on projects that reduce carbon monoxide (CO) and/or coarse particulate matter (PM<sub>10</sub>) emissions. Eligible CMAQ project types include transit improvements, travel demand management strategies, traffic flow improvements and pedestrian and bicycle facilities.

STBG Set-Aside, introduced with the Fixing America's Surface Transportation (FAST) Act, replaces the Transportation Alternatives Program (TAP). Examples of eligible projects include on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and safe routes to school projects.

The Call for Projects working group along with SRTC staff are busy working on the following items related to the upcoming call for projects:

- Streamlining the application process to consolidate the evaluation criteria into one application with supplemental applications (as needed) for specific funding source criteria (i.e. CMAQ air quality benefit)
- Capital maintenance project selections for only the first two years (2020 and 2021 annual allocations of STBG). This change is in response to member agencies' concerns around the uncertainty of predicting pavement condition too far into the future.
- Allocating a minimum percentage of STBG and STBG Set-Aside funds for small town projects
- Funding SRTC planning projects off the top
