

MTP Freight Element

Transportation Technical Committee

March 25, 2020

Subject Matter Expert (SME) Team

Motion to establish a subject matter expert (SME) team to inform the Freight Element of the Metropolitan Transportation Plan (MTP) update. The SME team will review the scope, draft workplan, timeline, and deliverables for the update and report to the TTC as study findings and key performance indicators develop.

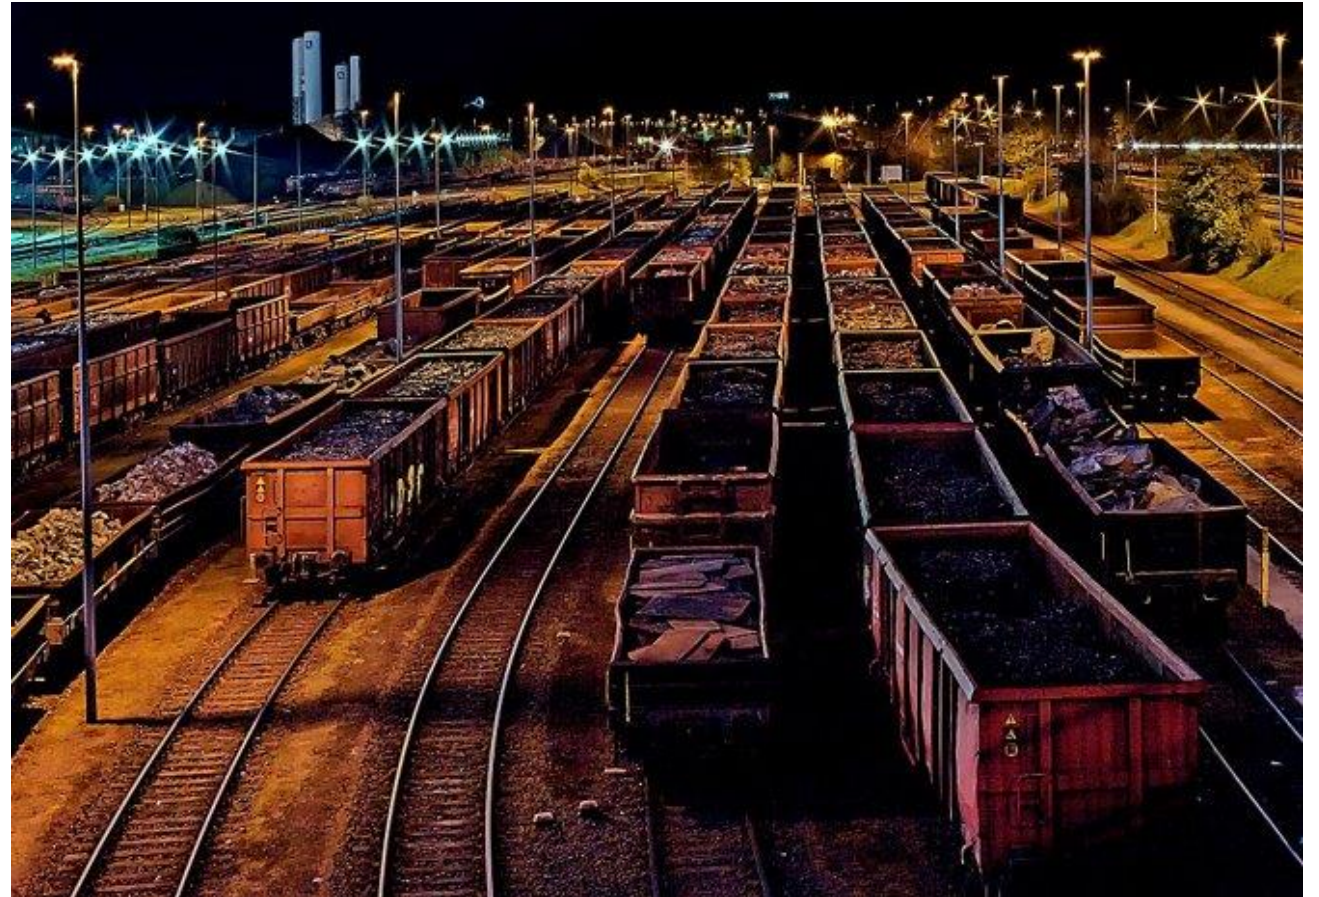

Integrated Study Approach

Freight impacts and relationship:

- Networks
- Land use
- Commodity Flows
- Disadvantaged populations
- Safety

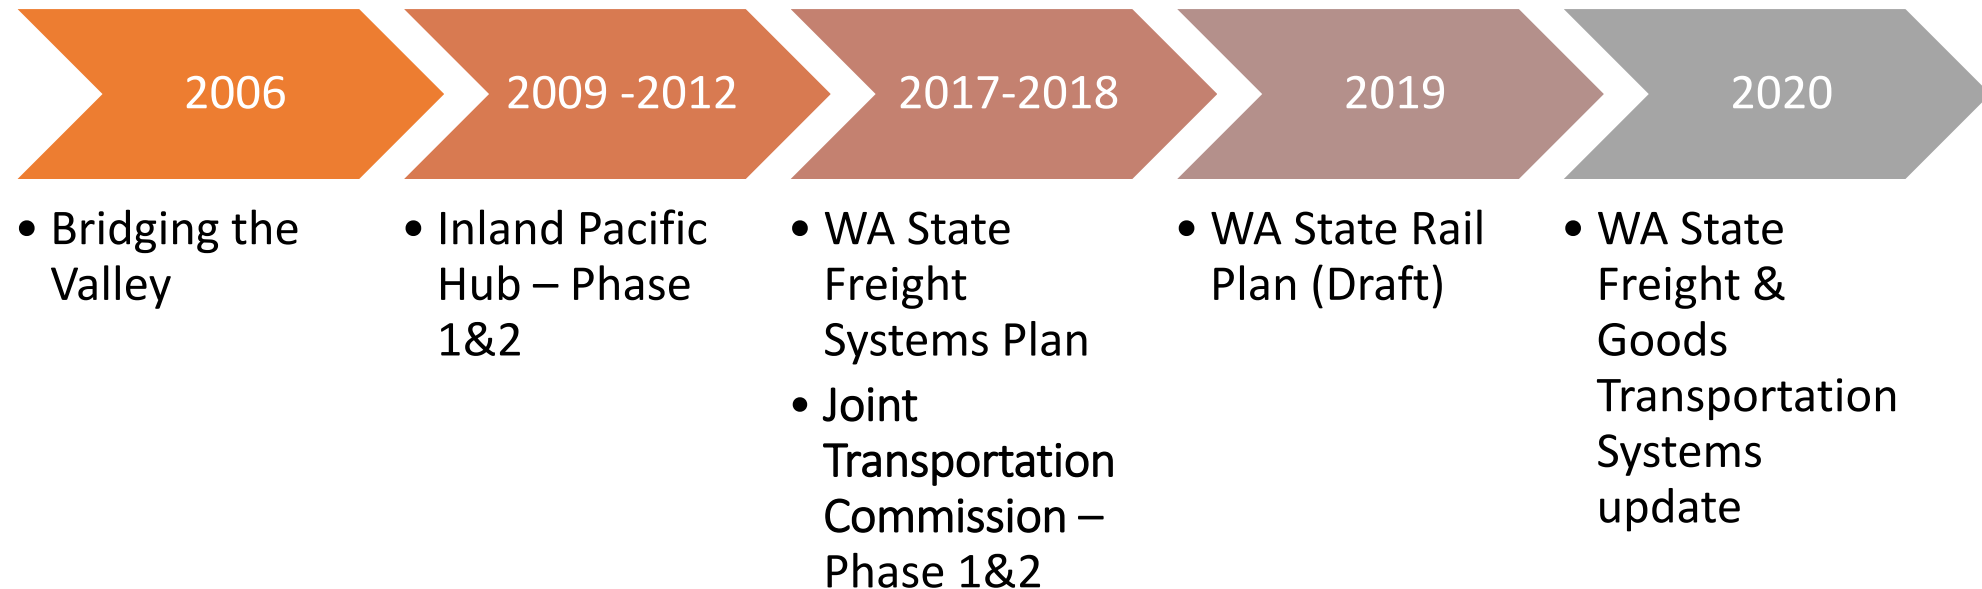

Proposed Study Outcomes

- Regional Freight Improvement Strategy
- Policy Recommendations
- Key Freight Performance Measures
- Prioritized Project List

Completed Tasks

- Draft scope, workplan, timeline & deliverables
- Literature review
- Purchased ATRI Data
- Collect additional data sets

SME Team Role

Key Decision Points

Initial review:

- Review SRTC's draft scope, workplan, timeline & deliverables.

Second Review:

- Make recommendations regarding data sets and visualization, additional stakeholder input, and freight needs and issues.

Final review:

- Review policy recommendations and freight performance measures. Report out to TTC.

** SME Team Role and touch points subject to change based on initial meeting.*

TTC Role

- Review and react to SME team's work.
- Identify any fatal flaws that may exist.
- TTC recommends adoption of MTP update to SRTC board

Subject Matter Expert (SME) Team

Motion to establish a subject matter expert (SME) team to inform the Freight Element of the Metropolitan Transportation Plan (MTP) update. The SME team will review the scope, draft workplan, timeline, and deliverables for the update and report to the TTC as study findings and key performance indicators develop.
