TAKING A “PROJECT FIRST” APPROACH

CUFC/CRFC DESIGNATION

CUFC/CRFC designation identifies important freight corridors that provide critical connectivity to the National Highway Freight Network

CUFC must be in the Highway Urbanized Area meet one or more of the following four elements

- Connect an intermodal facility to the PHFS, Interstate System, or another intermodal freight facility
- Located within a corridor of a route on the PHFS and provides an alternative highway option important to goods movement
- Serve a major freight generator, logistic center, or manufacturing and warehouse industrial land
- Be important to the movement of freight within the region, as determined by the MPO or State.

CRFC must not be in the Highway Urbanized Area meet one or more of the following seven elements

- Is a rural principal arterial with truck freight accounting for at least 25% of its AADT
- Provides access to energy exploration, development, installation, or production areas
- Connects the PHFS or Interstate System to facilities that handle more than 500,000 tons per year of bulk commodities
- Provides access to a grain elevator, agricultural facility, mining facility, forestry facility, or intermodal facility
- Connects to an international port of entry
- Provides access to significant air, rail water, or other freight facilities in the State

• Is determined by the State to be vital to improvement the efficient movement of freight of importance to the State economy

NATIONAL HIGHWAY FREIGHT PROGRAM [NHFP]

\$50 million in NHFP funds anticipated for local projects statewide [FFY 2022–2025]

- Spokane region share based on 2021 **population: \$3.5 million** [7.0%]
- Spokane region share based on **NHFN lane miles: \$3.2 million** [6.4%]
- Spokane region share based on **2016 NHFP: \$6.3 million** [12.5%]

2016 NHFP Call for Projects:

- \$89 million statewide [FFY 2016–2020]
- Spokane region received \$11.2 million
 - Bigelow Gulch-Forker Rd Connector: \$5.2 million
