Year 4 Work Plan

January 1, 2025 – December 31, 2025

During my 4th year with SRTC, I intend to focus on the continued professional development of SRTC staff and in the strategic operations of the organization. Ensuring our “house is in order” is key to the success of SRTC. I will also devote considerable resources to the support and development of the long-range Metropolitan Transportation Plan (MTP). This is a foundational document for SRTC and the Spokane Region, representing the collective vision of our members and the transportation projects, programs and financial resources that will be needed to realize that vision.

Year-4 Goals & Activities		
State & Regional Leadership	Organizational Focus	Program Development
<p>In 2025, I'll continue my work on various state and national issues and will involve the Deputy Director to ensure stability in messaging and sustaining local relationships. I'll continue to encourage staff engagement beyond traditional planning activities as I spend more time on internal activities of SRTC.</p>	<p>In the past 2-years, I implemented several activities to improve the org. functioning of SRTC, to update guiding documents, and to expand our public engagement. In CY 2025, I intend to focus my efforts on the overall effectiveness of SRTC as a service agency in the Spokane Region. This will involve internal work as well as our supportive relationships.</p>	<p>The work of SRTC supports a thriving community by providing transportation planning activities and project/agency support. These activities are identified in the 2-year work program (UPWP), which will be updated in early 2025. I will continue to monitor these planning efforts, but intend to rely on senior staff to take on greater leadership in this area.</p>
